

**Improve and automate  
your process with our  
new release SP 7**

**Improve and automate your financial processes  
with Runbook's "No touch Financials"**

Manage your financial processes in SAP

- ▶ Duration : 1,5 day (installation support included)
- ▶ Location : In company
- ▶ Attendees : Maximum of 5
- ▶ Cost : € 2100

Runbook company has released Runbook SP7. This new release offers you the opportunity to further automate your financial processes in accordance with our “No touch Financials” philosophy.

Runbook’s “No touch Financials” philosophy is software embedded in the SAP ERP suite to automate financial activities such as:

- Account Reconciliation
- Embedded Control Execution
- Embedded Financial Closing
- Remote Auditing

To make the first steps into “No touch Financials” we have set up a one-day in company (hands-on) training program that will help you understand how to automate your financial processes with Runbook SP7. The topics are:

- ▶ Live demo SP7
- ▶ Dynamic Variants / Batch Jobs
- ▶ Report outcome Verification
- ▶ Business Case to improve and automate your own process
- ▶ Setup a Project Plan “ No Touch Financials”

In addition, we will support you with the installation of SP7.

Your benefits are:

- Trained Super Users on new functionality
- First realized improvements of the (automated) process
- Project plan for further improvement and automation of your financial process

Regards,

Robert Kathmann  
Solution Manager - Runbook Company BV
