

## Visibility Dashboard for the Financial Close

### Webinar “Visibility Dashboard for the Financial Close”

Would you like to have a dashboard for your Financial Close Process giving visibility into the status of activities to ensure an on time, efficient and accurate close?

Come see “A day in the Life of a Global Financial Shared Services Controller” and learn what other companies have done to ease the challenges related to the close process. During this 60 minute webinar, Runbook will demonstrate a solution that solves major challenges from a Leadership/Management perspective and for everyone in the organization who participates in this process.

### Who should attend?

Anyone interested in improving the Close process and making your organization more efficient:

- ▶ Controllers
- ▶ Finance Managers
- ▶ Team leads responsible for Financial Close

Wednesday, February 24th

## When?

Wednesday, February 24th - 2:00 PM (EST)

## Registration:

Please send an email to [corey.dell@runbook.com](mailto:corey.dell@runbook.com) and we will send WebEx information.

The first three attendees to arrange a follow on meeting will receive the new iPod Shuffle!

## About Runbook Company, Inc.

Runbook Company International is the world's leading provider of financial software with solutions that streamline the Financial Close, Internal Controls and Compliance Documentation Processes in SAP. Organizations who have implemented Runbook have been able to successfully reduce costs and improve quality through the automation of recurring financial processes. Understanding the unique aspects of financial processes, Runbook provides solutions which automate and streamline these processes resulting in improved efficiency, visibility and transparency in critical areas.

## Customers quotes:

### **Novartis:**

"We depend on Runbook for the global execution of our business control framework and to maintain control of Financial Shared Services"

### **Procter & Gamble:**

"We leverage Runbook to centrally manage and track our financial close thus providing greater visibility of opportunities for process improvement and allowing work to flow more easily across and between groups and regions."

### **Customer in Consumer Goods industry:**

"Control over global shared services in SAP is not possible without Runbook."
